SELECTION SERVICE SUPPORT

Hello everyone. We hope you had a wonderful summer and that you are all "raring to go" as we head into the last quarter of 2011!

Judging by the level of activity we see (and from what you are telling us), it seems to us that the Western Canadian trailer and agricultural machinery business is producing an encouraging amount of business for you.

Perhaps the theme for our businesses in the months ahead should be "Yes we can thrive, thank you very much"!

The business headlines often scream about fear. Be afraid of US debt! Be afraid of Eurozone contagion! Be afraid of a double dip!

While we would never advocate being unaware of risk in business, it would appear that opportunity exists throughout our sector. Wouldn't it be a shame if we listened to the fear mongers and stuck our heads in the sand!

The leading indicators we look at include:

Continued strength in the agricultural grain sector. Many areas will have harvested good to great crops in very good condition. Commodity prices remain strong, suggesting good cash flow and product demand well into 2012.

The energy sector, particularly oil, presents a very encouraging picture of continued strong growth. These guys spend a lot of money, all over Western Canada, when they grow by the drill bit.

Residential and commercial construction, while not as backed up as in 2006 and 2007, is robust throughout our area.

Canada, as a whole, is in great economic shape.

Yes, there are risks out there in the real world. Caution is a good word. But there is much opportunity right now, right in our backyards.

At National Trailer Parts we are governed by one primary motivation; serving your needs to make your businesses more successful!

We hope we can continue to work with you in this way; exploiting opportunity for success. Your success!

Thank you for your business and your trust!

The Team at National Trailer Parts.

HISPEC SERIES 07 ALUMINUM TRAILER WHEELS

- Many late model pickups and SUV's come equipped with similarly designed wheels. The 07 Series have an attractive gun metal gray paint on aluminum spoke, with heavier, wet clear coat finish for added corrosion resistance.
- Pre-installed steel hole inserts, uses standard size lugnuts and is safer, less expensive and easier to use.
- With an open lug nut design, the lugnut holes are big enough to use a 4-way lug wrench, no special tools required.
- Wheels arrive clean and undamaged, packed in individual corrugated boxes, ready for installation or retail sales; featuring IFC Technology - no need to re-torque.

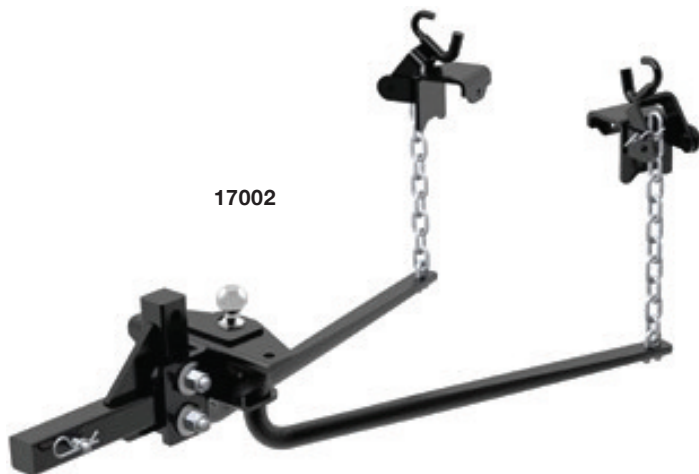

Part No.	Ref. No.	Description
WH135-507A	326610	13 X 5, 5 ON 4.5, 319 PILOT, 1660 LBS, SERIES 07

WH166-807A	326750	16 X 6, 8 ON 6.5, 4.90 PILOT, 3960 LBS, SERIES 07

WEIGHT DISTRIBUTION HITCH

Ideal for use when towing trailers with heavier tongue weights. A Weight Distribution Hitch applies leverage between the tow vehicle and trailer resulting in a more level ride with less stress on the rear of the tow vehicle. Use with a 2" receiver hitch. Rated at 10,000 lbs. towing capacity.

Part No.	Ref. No.	Description
17002	318078	WEIGHT DIST HITCH, 10 K ROUND BAR, ADJUSTABLE SHANK
17200	318084	SWAY CONTROL ARM & BALL, USE WITH WEIGHT DIST HITCH
17108	318090	LIFT BRACKET KIT FOR WEIGHT DIST HITCH - PAIR

PRODIGY P2 BRAKE CONTROL

- Self-leveling motion sensor adjusts to varying terrain as you drive.
- Easy to read LED displays voltage delivery to trailer during diagnostics & braking mode.
- On-board diagnostics with built in digital volt ohm meter checks for output short circuit, open ground, output overload & power loss; displays a flashing warning on a red screen to alert the user.
- Choice of electric or electric over hydraulic brake mode, showing E or H in lower left corner of display.
- 3 boost levels provide more aggressive braking for heavier trailers.
- Easy center mount design provides a quick disconnect and allows for multiple vehicle use.
- Plug & Play Installation eliminates hard-wiring in vehicles with OE tow package connections.
- Inertia sensor allows proportional braking in reverse without using a manual lever and can also be disabled.
- Multiple mounting options allows a 360 degree vertical rotation.

Part No.	Ref. No.	Description
90885	416634	PRODIGY BRAKE CONTROL P2 1-4 AXLES

10K LOCKING ALUMINUM BALL MOUNT

- Fast adjustments & superior theft protection with integrated dual self-locking system.
- Double sealed lock cylinder design provides 100% water & corrosion resistance. Never needs to be internally lubricated or maintained.
- Anti-rattle system reduces noise & hitch wear.
- Rated 10K trailer & 1.5K tongue capacity.

Part No.	Ref. No.	Description
DT-ALBM6600	319652	ADJUSTABLE LOCKING BALL MOUNT 6" DROP, 2" & 2 5/16 BALLS

THE NATIONAL DIFFERENCE

PEOPLE

Sometimes it seems like we spend more time talking to our customers than we do talking to family. The truth is our customers are like family to us—we experience joy when you experience joy, and feel pain when you feel pain.

This section is dedicated to putting faces to the voices you hear when you call National Trailer Parts.

Something Old.....

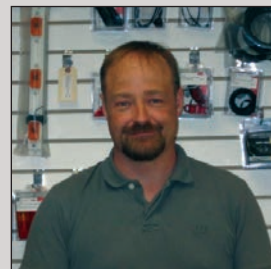

James Maxwell

James (On the Right) has been with National Trailer Parts for 14 years. He is shown here receiving his service reward from Wayne Sykes—Supply Chain Manager.

As well as being one of our most seasoned veterans in the warehouse, James also looks after all of our caretaker needs.

James is married to Bev, and together they have 3 grown children, Kara, Blair and Donna, as well as several grandchildren.

Something New.....

Greg Olson

Greg is the newest member of our sales team. He comes to us with a vast background in Sales, including Auto Parts, RV, & Vehicle Sales.

He also has experience in the oil industry and in logistics, so he understands the needs of a large cross section of our clients.

When Greg is not at work—he enjoys spending time with his two children, Tristan and Mackenzie.
